

# JD SMITH

JD Smith is one of Australia's most exciting vocal talents. A long time member of International vocal supergroup The Ten Tenors, JD has performed on the world's greatest stages and is considered one of the best indigenous pop vocalists Australia has ever produced.

JD Smith is perfect for corporate and sporting events and private functions. (No one can sing the national anthem as well as JD!) He has the power and range that reminds people of John Farnham and the romantic tenderness of the great balladeers.

JD is often referred to as a singers singer. His music contemporaries are impressed with the different shades to his distinctive voice and audiences agree his talent is one of a kind.
